---

## EDUCATION

- **Sheridan College, Canada** Interactive Media Management **Sep 2023-Apr 2024**
  - **Pan Atlantic University, Nigeria** BSc in Information Science and Media Studies **Sep 2017-Aug 2021**
- 

## EXPERIENCE

**Sheridan College** **Oct 2023 - Apr 2024**

*Postgraduate program tutor for Interactive Media Management.*

- Conducted personalized one-on-one tutoring sessions for students seeking assistance in web application development (JavaScript, PHP, Ajax).
- Provided drop-in support sessions, accommodating various student schedules to address immediate questions and concerns about the course materials.
- Initiated regular discussions with lecturers to stay updated on course content, ensuring accuracy and depth in tutoring.

**Sheridan College Library** **Oct 2023 - Dec 2024**

*Graphic and Web Designer*

- Created diverse and inclusive visual content using Illustrator, designing posters and illustrations to promote diversity and inclusion within the college community.
- Developed engaging visual materials aimed at encouraging inclusivity and awareness among students and faculty.
- Utilized HTML, CSS, and JavaScript to craft an interactive storytelling experience, incorporating animations and user-friendly interfaces.

**Bank of Industry Nigeria**

*Front-End Developer and Graphic Designer* **Jan 2022 - Apr 2023**

- Designed posters and implemented data-driven visuals utilizing Adobe Illustrator, for the company's website, social media pages, and events. Enhancing user interaction.
- Collaborated on the design of the company website by handling the design of the sketches and wireframes of the different pages of the website using Figma and the style tile and research done by the team.
- Conducted and gathered insight from user research with Google Analytics to guide the redesign of the corporate website.
- Collaborated on the development of the front end of the organization website React JS as the development language, and GIT for team collaboration, focusing on scalable, maintainable code for web applications.

**Huawei Technologies Co. Ltd**

*Software Engineering Intern* **Nov 2021 - Dec 2022**

- Led RNC integration and MME upgrades for GLO Telecom, improving network performance and integration.
  - Managed data servers and conducted network stability analyses, optimizing network performance using data structures and algorithms.
  - Participated in network optimization projects, improving configurations and collaborating with teams to solve network issues.
- 

## PROJECTS

**ShareDen** | *A web app for Sheridan College students to post and find events in the city*

- Developed an Interactive web platform using JS, HTML/CSS, as the front-end interaction and enhanced user experience
- Created a design system and designed the prototype of an Interactive Web Platform using Figma to aid the development.
- Integrated backend functionality using PHP, MYSQL, and AJAX to manage user data and interactions.
- Implemented basic CRUD functions and used knowledge of system design to create the architecture of the website and user flow and Optimized database queries and system performance for seamless user experiences.
